

Apollo

Houston: the Eagle has landed. Our Apollo stools are great for transit areas where you might just want to sit for a minute or two, so whether you're looking to make one small step for man and one giant leap for mankind or just have a corridor or reception area where you'd like somewhere for someone to sit for a short while, Apollo is your answer.

Available in two sizes, in any of our four signature colour pallets (Meadow, Moorland, Mountain, Sky) in any of the four contrast or plain options (see below in Sky) or alternatively in any of the 80-plus special order colours
